- Hardware Maintenance
- Software Management

LANGUAGES

- English
- Filipino

OBJECTIVES

Motivated and detail-oriented Bachelor of Science in Information Technology (BSIT) student seeking an entry-level IT Support or System Development role. Passionate about troubleshooting, networking, and developing systems that improve efficiency and user experience. Eager to apply technical skills and continuously learn in a professional environment.

WORK EXPERIENCE

AW MERCHANDISING

2021 - PRESENT

IT Support Specialist

- Delivered efficient IT support by diagnosing and resolving hardware, software, and network issues involving computers, printers, and CCTV systems, reducing downtime and ensuring continuous operations. Installed, configured, and maintained surveillance systems and network devices to enhance security and system reliability.
- Designed and developed business systems, including a Point of Sale (POS) and Guidance System, improving transaction processing, data organization, and overall workflow efficiency. Demonstrated strong problem-solving skills, technical expertise, and the ability to manage multiple IT tasks in a fast-paced environment.

DIGITAL INNOVATION SOLUTION

Technical Support

2024

- Gained hands-on experience in IT and network support by performing fiber optic splicing and fusing, RJ45 crimping, and LAN cable terminations. Installed, configured, and maintained CCTV systems for security monitoring, and assisted in solar setup and installation projects. Provided troubleshooting and support for PCs, network devices, and peripherals to ensure smooth operations and minimize downtime.

PROJECTS

- HiveLink: Smart Home Automation – Developed an IoT system using NodeMCU ESP8266 with voice control via Google Assistant and Alexa. Enabled remote/manual appliance control and real-time monitoring.
- QuickCart POS System – Built a VB.NET POS and inventory system with MS Access. Managed sales, products, purchases, and reporting for smooth business operations.
- Guidance / Student Record System – Created a system to encode student results and manage records efficiently. Improved workflow and data organization.
- Other Systems – Assisted in developing internal tools for AW Merchandising to streamline operations and data management.
